

Interactive Mediaplayer supports Music Slideshow now and is available as LCD integrated from 7 to 42"

As the leading company in the Embedded Digital Signage Market, Winmate announces our latest Interactive Media Player series with a unique new feature. With this step, Winmate follows the big demand of our worldwide customers.

Interactive Mediaplayer Supports Music Slideshow:

Example:

Promotion Pictures With background music

Many customer requested the possibility to play a slideshow of some pictures, while playing some music in the background. This makes Digital Signage interactivity even more easy and attractive, as the design of a Video with Audio is always very costly. Our new feature Music SlideShow, allows customers to save the cost for producing Videos, and use Pictures instead, by keeping the user attracted by the multimedia effect. Easy upgrade of the Player:

1. Download FW from Download Center
2. Copy to USB, SD or CF card
3. Boot the player with the storage , done

Our MPO Software can update automatically and will ask for the update, just click Yes.

7" to 42" Interactive Media Player available now:

As Chassis 7~42":
