## MPC 500 + Touch / Button Full HD Interactive Media Player Solution

### MPO Software features

Our MPO Software allow you in easy steps, guided with the User Interface to create your own interactive content, by simply selecting pictures and videos. You are free in the complexity, background choice and if you want to go to a new menu, play a playlist or jump to an existing menu. MPO supports up to 20 zones , supports pictures with background music as a slide show, or plays your videos. The excellent combination of Embedded Media Processor and easy-to-use User Interface is opening a new era in the Digital Signage Standalone solutions.
