

## New 46" High brightness LCD - Highest impact with your content

*1500 nits brightness and 3000:1 contrast ratio assure excellent visibility even in bright outdoor environments.*

Winmate has launched the new high brightness product. It provides an excellent performance for the use in digital signage for transit centers, bus shelters, museums, shopping malls and for the use at point-of-sales in retail outlets, to replace outdated poster advertisements. With an extremely high brightness level of 1500 nits and static contrast ratio of 3000:1, your content will have high impact even in bright outdoor environments. It leads itself to a variety of customized applications.
