

Ultimate Performance of Remote Manageability

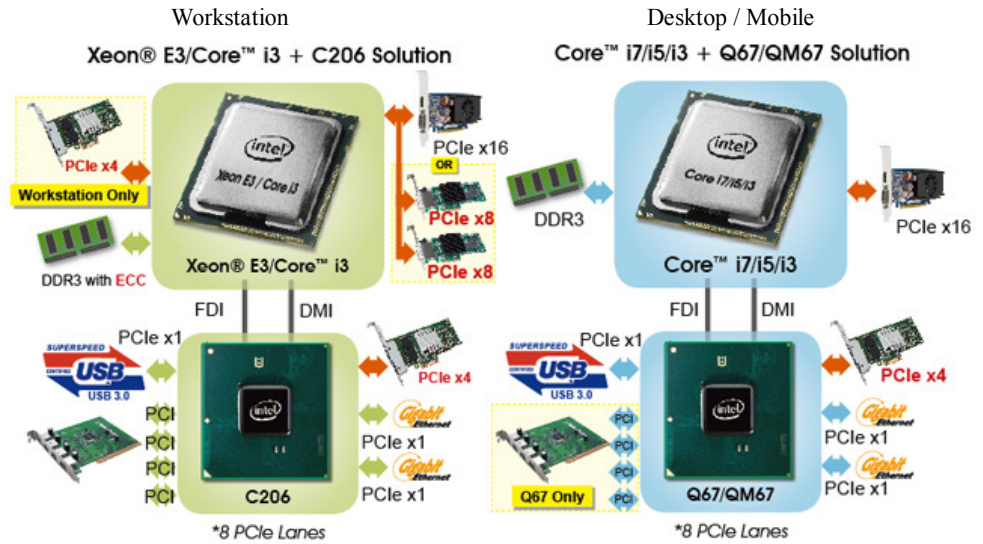

2nd generation Intel® Core™ processor family with 6 series chipset family

Date: May 17, 2011

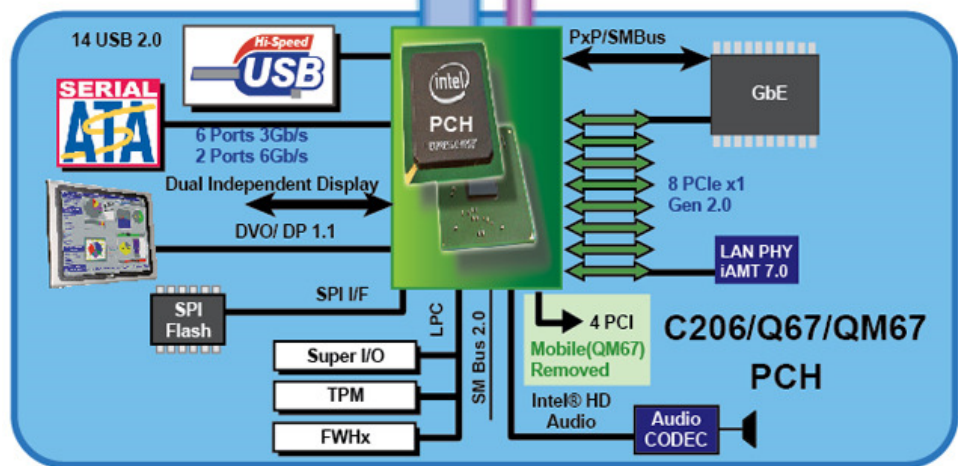

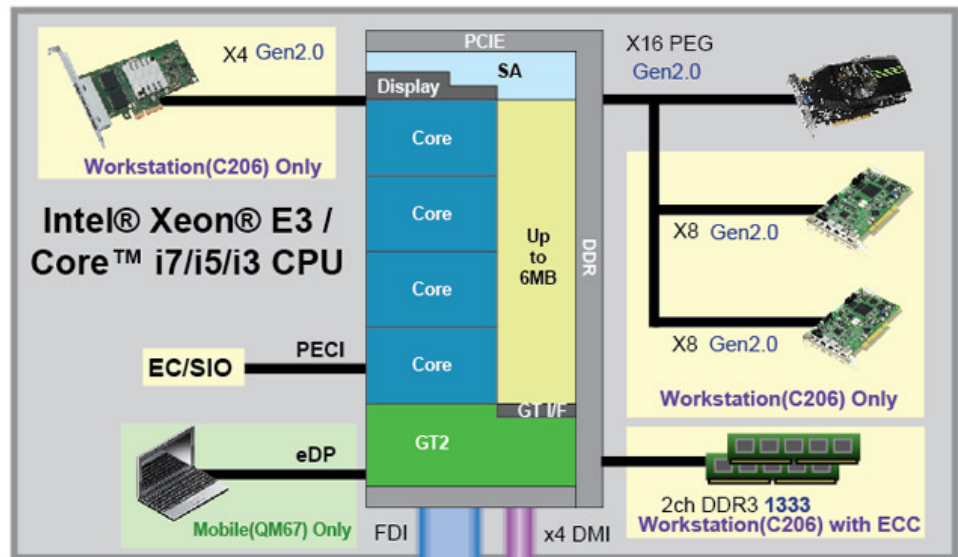

2nd generation Intel® Core™ processor family with 6 series chipset family introduction

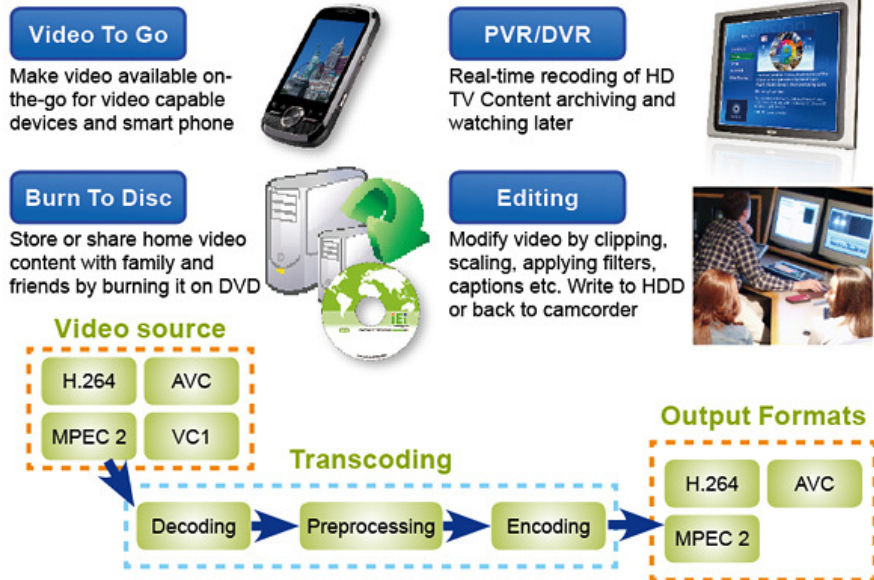

Zoom in the expansion features of workstation and desktop or mobile platform

Stereoscopic 3D(S3D)

■ 3D Graphics Feature Comparison Table

3D Graphics Feature Core™ i7/i5/i3 with Q57/QM57

Xeon® E3 /Core™ i7/i5/i3 with C206/Q67/QM67

DirectX	10	10.1
OpenGL	2.1	3.0
EU's	12	12
Threads/ EU	6	4
HiZ	Yes	Yes with MSAA depth buffer
MSAA	No	Yes
Intel® Turbo Boost Technology	Yes	Supports next generation of Intel® Turbo Boost Technology

■ Performance Comparison in 3DMark 2001

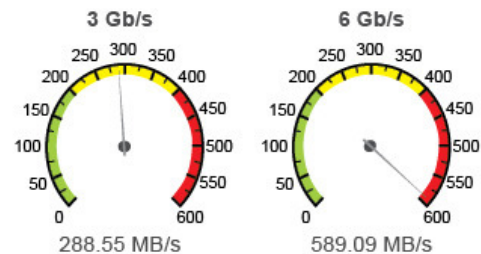

Platform	PCIE-Q57A	IMBA-Q670
CPU + PCH	Intel® Core™ i5-600 + Q57	Intel® Core™ i5-2400 3.10GHz + Q67
Score of 3DMark 2001	14238	17660

SATA 6Gb/s Features

■ The Best Choice of Performance Chipset for LGA775 Platform

- ◆ The newly released Serial ATA Revision 3.0 specification doubles the current SATA transfer rates to 6Gb/s
- ◆ SATA 6Gb/s enables faster read and write speeds.
- ◆ Enables end-users to move large amounts of data at faster rate.
- ◆ Backward compatible with SATA 1.5 and 3.0 Gb/s.
- ◆ RAID cards are designed in SATA 6Gb/s as well.
- ◆ The same cables and connectors used for current SATA 1.5 and SATA 3.0 implementations can be used to connect SATA 6Gb/s devices.

[▲ TOP](#)

Intel®AMT 7.0 Focus

■ Ready to use Intel® AMT solution

Less complex and faster to deploy than on previous platforms

Host Based Provisioning

- Set-up and configuration done in the OS as opposed to the ME on previous generations
- Activated like a software application in minutes

ME Firmware Rollback

- IT Administrator can decide which version of the AMT 7.0 Firmware to roll-out
- Keeping firmware consistency within the infrastructure

■ New addition of DASH 1.1 with KVM Support !!

DASH (Desktop and mobile Architecture for System Hardware) is a DMTF (Desktop Management Task) is a DMTF(Desktop Management) standard on requirements for implementing the Desktop and Mobile Architecture for System Hardware.

About IEI Technology Corp.

IEI Technology Corp. is a leading industrial computer provider. IEI's products are applied in computer-based applications such as factory automation, computer telephony integration, networking appliances, security, systems, POS systems and in fields like national defense, police administration, transportation, communication base stations and medical instruments. IEI continues to promote its own-brand products as well as serving ODM vertical markets to offer complete and professional service.
